

**RULES OF BUDGET ALLOCATION FOR ACCREDITED APPLICANTS  
UNDER ERASMUS+ KEY ACTION 1**

National Agency	IE01, IRELAND, LÉARGAS
Field	VET
Call year	2022

This document defines detailed rules of budget allocation for accredited applicants, in line with the framework established in the Erasmus+ Programme Guide:

The quality of the applicant's Erasmus Plan has been assessed at the accreditation application stage and therefore no qualitative assessment will take place at budget allocation stage. Any eligible grant application will receive funding.

The awarded grant amount will depend on a number of elements:

- the total budget available for allocation to accredited applicants
- the requested activities
- the basic and maximum grant
- the following allocation criteria: financial performance, qualitative performance, policy priorities, and geographical balance (if applied by the National Agency)

Detailed rules on basic and maximum grant, scoring of the allocation criteria, weighting of each criterion, the allocation method, and the budget available for accredited projects will be published by the National Agency ahead of the call deadline.

## 1. AVAILABLE BUDGET

Total budget available for allocation to accredited applicants <sup>1</sup> :	At least 4,990,000
---	--------------------

The available budget will be apportioned between the applicable allocation criteria in the following way<sup>2</sup>:

Basic grants and financial performance	At least 1,815,000
Qualitative performance and policy priorities	At least 1,815,000

In addition, the following amount will be reserved for budget categories based on reimbursement of real costs:

Inclusion support for participants and exceptional costs	150,000
--	---------

In case of need, the National Agency may further increase the reserved amount. If part of the reserved funds is left unused, the National Agency may distribute them through a second allocation exercise.

## 2. ESTIMATING THE BUDGET REQUIRED TO IMPLEMENT THE REQUESTED ACTIVITIES

The National Agency will calculate the budget required to implement activities requested by each applicant. The estimation of the required budget will be done on the basis of unit costs defined in the Programme Guide and historical data on grants for similar activities.

A standardised estimation cannot be performed for costs that are highly dependent on each specific case, namely inclusion support for participants and exceptional costs. Requests for these types of costs will be assessed based on the description, justification and estimated amount provided by the applicant as part of the application. In addition, beneficiaries can make further requests for these types of costs during the first 12 months of project implementation by submitting a written request to the National Agency. A limit on the total amount of additional funds that can be requested may apply, as defined in the relevant grant agreement.

In all cases, the awarded grant shall not be higher than the estimated budget required to implement all activities requested by the applicant.

---

<sup>1</sup> The final allocated budget may be lower than the specified amount if all applicants have been awarded the maximum amount according to the rules set out in this document. If additional funding becomes available, the National Agency may increase the available budget.

<sup>2</sup> Exceptionally, the specified amounts may be lowered if the budget required for inclusion support and exceptional costs is higher than originally foreseen; if all applicants have already been allocated the maximum amounts according to the rules set out in this document; or if a minor correction is required due to rounding rules.

## **2.1. Maximum grant<sup>3</sup>**

The maximum grant set for Accredited organisations in the field of VET is €550,000. This figure was determined following historical analysis of projects awarded funding for KA116 & KA102 in 2018, 2019, 2020 and 2021. Given the expected increases in budgets from accredited organisations in 2022, we increased the maximum grant amount.

As an exception, costs for inclusion support for participants and exceptional costs will not count towards the limits set by the rules on maximum grant.

## **2.2. Competitive allocation**

If the total budget available for allocation to accredited applicants is not sufficient to provide each applicant with the budget required to implement their requested activities (taking into account the rules on maximum grant defined in this section 2.1), then a competitive allocation will take place as described below in section 3. However, if the total available budget is sufficient to fully address requests of all applicants, then the budget allocation rules described in section 3 will not apply.

## **3. BUDGET ALLOCATION RULES**

Budget allocation will take place in multiple phases. In each phase, the available budget will be divided between eligible applicants based on the described criteria<sup>4</sup>.

Applicants that receive the full budget required to implement their requested activities (or that reach their maximum grant) will not participate in further allocation. Any surplus funds will be divided among other applicants based on the allocation rules as specified for each phase. All allocated amounts will be rounded to the nearest whole Euro.

### **3.1. First phase: basic grants and financial performance**

The basic grant set for Accredited organisations in the field of VET is €80,000. This figure was determined following analysis of grants awarded and absorption rates in previous years.

The National Agency may increase the basic grant after the submission deadline, in case sufficient funds are available.

Due to the impact of the pandemic, there will be no criterion on financial performance for the 2022 deadline.

---

<sup>3</sup> In addition to the general rules on maximum grants, the awarded grant for applicants under observation may be further limited by the National Agency in accordance with the specific decision on establishment of observation measures.

<sup>4</sup> When calculating the applicants' performance, the National Agency may exclude from consideration past projects that have been negatively affected by the COVID-19 pandemic or other events outside of the beneficiary's control (*force majeure*).

In future years for organisations that have already completed grant agreements under their accreditation, the amount of the basic grant will be linked to their past financial performance to ensure stable and reliable funding for good performers. In this context, financial performance refers to the applicants' ability to fully use the awarded funds, as demonstrated by their results in previous grant agreements.

In this context, experienced applicants (those that have been accredited through the light accreditation procedure and have completed at least one grant agreement under the VET Mobility Charter) may receive a basic grant equal to their highest absorbed amount during the last three grant agreements completed under the VET Mobility Charter.

### **3.2. Second phase: qualitative performance and policy priorities**

The purpose of the qualitative performance criterion is to ensure that accredited applicants deliver good quality activities and gradually progress towards the objectives of their Erasmus Plan. In addition, applicants may score higher if proposing to implement priority activities.

Budget assigned to this phase will be divided among the applicants in proportion to their score.

The score of each applicant is calculated in two steps:

- a) For newly accredited applicants, the base score will be equal to the evaluation score of the applicant's accreditation application. For applicants that have been re-accredited through the light accreditation procedure, the base score will be equal to the evaluation score of the last final report for projects implemented under the VET Mobility Charter (KA116). If no such report is available, the applicant's base score will be equal to the score of their VET Mobility Charter application.
- b) A bonus to the base score will be applied according to the following criteria:
  - Involvement of participants with fewer opportunities
  - Implementing long-term learning mobility of learners (ErasmusPro)

The total of these indicators will be taken as a percentage of the overall numbers of participants in the application form. The percentage will be divided by 10 to give the number of points to be added as a priority bonus. The maximum number of priority bonus points that can be awarded is 10.

The overall score for each applicant will be calculated in the following way: the base score and bonus will be added to determine the overall score.

## **4. TOTAL AWARDED GRANT AND TARGETS FOR DELIVERY**

For each applicant, the total awarded grant will be the sum of amounts they have received in each allocation phase. If any requests for inclusion support for participants and exceptional costs have been approved by the National Agency, these amounts will be added to the total awarded grant.

Before issuing a grant agreement, the National Agency will calculate appropriate targets for delivery. If the applicant has been awarded the full budget required to implement their requested activities, then the activities requested in the application will become the targets for delivery. If the awarded grant is lower than the full budget required to implement the activities requested in the application, then the targets will also be lowered proportionally to ensure that the applicant is able to deliver them with the awarded budget.

The National Agency can make limited modifications to the proportional adjustment in order to allow for a better fit between the awarded budget and target activities, to ensure coherence with the approved Erasmus Plan, to provide adequate support for priority activities, to maintain at least one participant in each activity type and category requested by the applicant, and to comply with any limitations defined in the Programme Guide.

Beneficiaries are able to implement the target activities with a wide flexibility, while remaining within the scope of their approved Erasmus Plan. Delivery of agreed activities and targets will be evaluated at the final report stage.
